

STUDENT LEARNING OUTCOMES (SLOS)

Student Learning Outcomes (SLOs) indicate the knowledge, skills and abilities that students will demonstrate upon completion of a course or program. Adopted SLOs for each course offering are available to students through the course syllabi provided by the instructor. The program SLOs are listed under degrees and certificates in the catalog. Assessment of learning outcomes is ongoing and documented regularly in the SLOAC Canvas shell into which interested individuals can self-enroll: <https://sjeccd.instructure.com/enroll/LJ44NA..>
