

SURVEYING AND GEOMATICS (SG)

SG 100 Applied Math for Land Surveying 1 Unit

This course presents math concepts and skills required in land surveying and mapping. The course covers topics in geometry and trigonometry related to surveying problem-solving. Intersections of lines and circles are discussed and so are the formulas used in horizontal and vertical curves.

Lecture Hours: None Lab Hours: 3 Repeatable: No Grading: L
Recommended: Completion of Geometry in high school or college
Advisory Level: Read: 3 Write: 3 Math: None
