

ACCOUNTING - ASSOCIATE IN SCIENCE

This curriculum provides training for entry-level accounting positions including general accounting clerks, bookkeepers, and similar workers in banks and business firms. Graduates from this program are qualified to meet the demands of offices requiring technical skills in general accounting and computerized bookkeeping. Associate degrees require that students earn a "C" or better in all major or area of emphasis courses. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis.

Program Learning Outcomes

- Create and analyze financial statements, and communicate results to end users.
- Prepare and record accounting entries in accordance with generally accepted accounting principles using both manual and computerized accounting systems.
- Apply knowledge of managerial, cost and tax accounting to identify and record economic events.
