BUSINESS ADMINISTRATION 2.0 - ASSOCIATE IN SCIENCE FOR TRANSFER

Students participating in the Business Administration 2.0 Associate in Science for Transfer (AS-T) degree program should expect to participate in a challenging but fair learning environment. This program was designed through an equitable lens, and based on the core principles of empathy, engagement, high expectations, innovation, and critical thinking.

Additionally, students will have freedom to explore and formulate business concepts of their own. They will receive a combination of various teaching approaches including demonstrations, lectures, discussions and collaborative activities to facilitate their learning experience and simulate a representative business environment.

The Business Administration 2.0 Associate in Science for Transfer degree is designed to prepare students to transfer into the California State University system to complete a baccalaureate degree in Business Administration or a similar field of study and provide a strong foundation for careers in a diverse global environment including business, accounting, and marketing fields.

To be awarded the Associate in Science in Business 2.0 for Transfer degree, students must:

1. (1) Complete 60 semester units or 90 quarter units which are eligible for transfer to the California State University (CSU) system, including both of the following:

   (A) The California General Education Transfer Curriculum (Cal-GETC)

   (B) A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

   (2) Obtain a minimum grade point average of 2.0.

   While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.

   Associate Degrees for Transfer (ADTs) also require that students earn a "C" or better in all courses required for the major or area of emphasis. A "P" (Pass) grade is also an acceptable grade for courses in the major if the course is taken on a Pass/No Pass basis.

Program Learning Outcomes

- Identify and explain the major functional areas of business organizations including management, marketing, finance, and accounting.
- Employ commonly used computer application programs to create relevant business documents.
- Apply accounting and mathematical concepts and principles in making decisions about business operations.
- Assess the relationships and inter-dependencies of economic, social, legal, and global environments in which businesses operate.
- Define terms and concepts used in macroeconomics and microeconomics.
- Compose effective oral and written communications in various business settings.
- Research, develop, evaluate, and test possible solutions using creativity, critical thinking, and technology skills.
